**Guaranteeing Software Quality**

**Your Partner to deliver High Quality Software & Services with Best confidence**

# QCON at your services

Testing is no longer a phase of software implementation life cycle. It has become more challenging and innovative area to ensure time to market, quality of product and services ahead of market competitors.

It is very important to identify the areas of testing, usage of right strategies to plan and manage testing activities.

Mature testing brings client requirements and organization quality standards together to ensure that "right-product" is delivered.

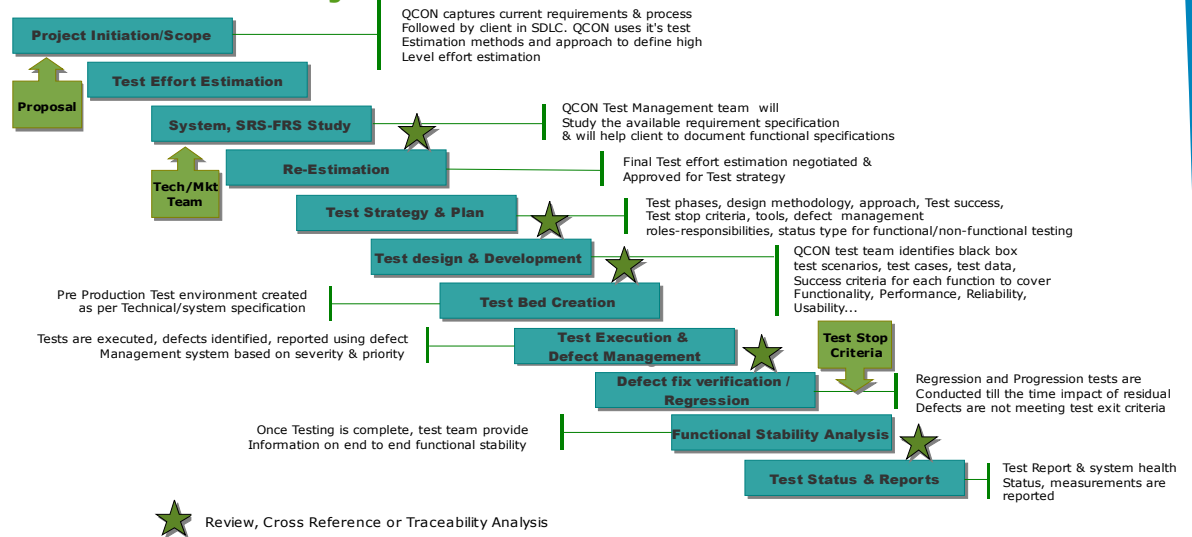

***"QCON, as a third party Testing house provides world-class software Quality Assurance and Quality Control services to IT companies globally and assists them to deliver reliable software to production market time and again"***

QCON is specialized in setting up end-to-end test process and methodologies to ensure highest level of test solution delivered to achieve customer satisfaction. We at QCon understand your business needs to bring effective combination of process and technology that ensures to hold a high quality tag in delivery of meeting requirements on time and within budget.

QCON, as independent service provider, brings strong experience in software testing varying from distributed applications, client-server to mainframe applications. Our business domain expertise ranges from Retail, Finance, Supply Chain Management, Telecom, and ERP to e-Business Applications.

Test CoE Setup	Test Cycle Time Reduction	Optimized Process
Process Alignment to CMMI	Customer Test Process Alignment	Business Alignment
Gap Analysis	Test Risk Compliance	Open Source Tools based Test Solution

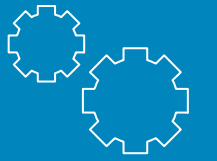

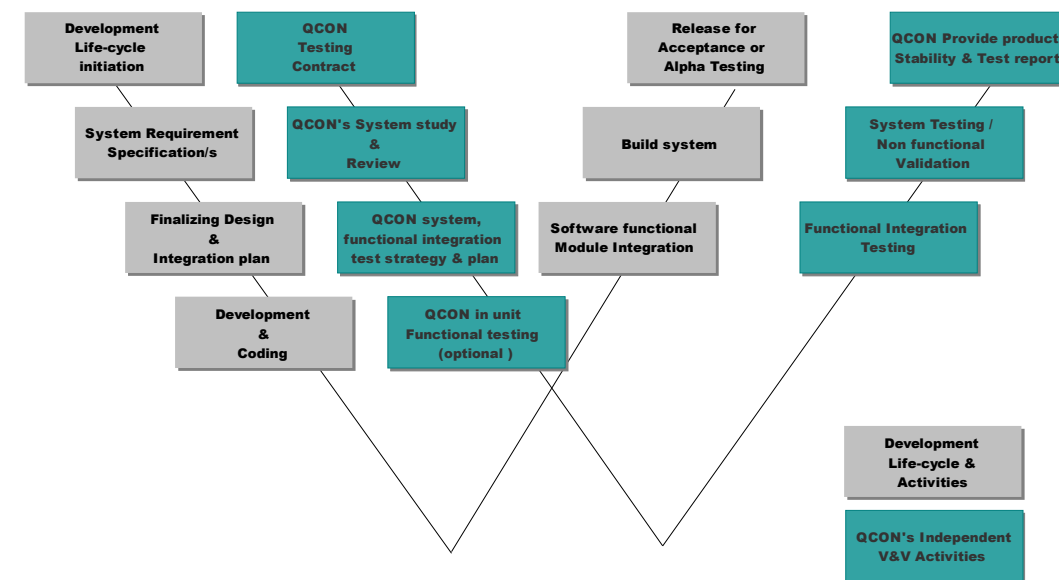

## QCON Test Life Cycle

## QCON's QC - Parallel V Model

QCON QC model identifies software quality qualifiers from the initiation of implementation Life-cycle. We assist customers to define & build QA-QC activities, measure each of the qualifiers throughout the life-cycle of design & development. QCON defines FURPS+ in parallel to development Life-cycle.

We setup and deliver QA-QC solutions through integrated on-site or offshore models. Our expertise are "cycle time reduction" and "on-time delivery" with strategic planning.

### SERVICES

- Independent Verification & Validation (IV&V)
  - Requirement Analysis & Review
  - Unit and Integration Testing
  - Functional Testing
  - Reliability Testing
  - Performance & Load Testing
  - Scalability Testing
  - Business Acceptance Testing
  - Alpha Testing with Biz. Compliance
  - Platform and Migration Compatibility Testing
  - Test Server Log Analysis
